MyNilam

Complete Frontend Flow — Figma Design Prompt

DESIGN SYSTEM · SCREENS · RESPONSIVE · ROLE FLOWS

Product: Indian rental & co-living marketplace
Stack: Next.js (App Router) · Tailwind · Leaflet/OpenStreetMap · Django DRF backend
Date: August 2026

Product Overview

MyNilam is an Indian real-estate rental + co-living marketplace. It connects tenants with verified flats, houses, commercial spaces, PG/hostel beds and roommate shares. The brand tagline is *"Find Your Next Room."*

The logo is the word **"My"** in slate, followed by the animated word **"Nilam"** (the word for "land") cycling through 5 languages: **Nilam · നിലം · ज़मीन · நிலம் · أرض** — rendered in an indigo-to-violet gradient.

Design Language (apply everywhere)

- **Glassmorphism + soft depth**: `white/90` (light) or `slate-950/90` (dark) surfaces with backdrop-blur, `rounded-3xl` cards, `border-2 border-black` in light mode / `border-slate-600` in dark mode, layered shadows and radial gradient glows (indigo and purple).
- **Fully responsive**: desktop = 3-column + sticky sidebar; tablet = 2-column; mobile = single column with a fixed bottom action bar.
- **Light + dark mode** both required.
- **Color system**: primary `indigo-600` (gradient indigo-600 → violet-700); hostels/PG accent `purple-600 → pink-700`; success `emerald`; availability emerald pill; danger `red`; warning `amber`; neutral `slate-50 → 950`.
- **Typography**: heavy weights (font-black / font-extrabold) for headings and prices; tiny uppercase tracking-widest labels (10–12px) for micro-labels; prices in Indian ₹ formatting (e.g. `₹25,000/mo`).
- **Micro-interactions**: hover scale-105 on cards/buttons, active scale-95, animated fade-in, sticky header that hides on scroll-down and reappears on scroll-up.

Roles (each sees a different dashboard)

1. **Guest** — browse only, no posting.
2. **Normal user** (landlord/tenant) — post ads, favorites, inquiries, messages, visits, leases, maintenance.
3. **Employee** — verify & publish pending listings.
4. **Super Admin** — master catalog, employee register, user directory, hostel requests.
5. **Hostel Admin** — manage a single hostel/PG.

Screen Flow

Screen 1 — Home / Catalog `/`

- **Sticky glass header** (top): logo left; center nav "*Find Properties · Dashboard · Settings*"; right "*Go Pro*" pill, user name + role chip, logout icon, theme toggle, and a **"Post Ad"** gradient CTA.
- Below header, a sticky glassmorphic **tab switcher** with two big segmented buttons: **"PROPERTIES & ROOMS"** (indigo gradient when active) and **"HOSTELS & PGs"** (purple gradient when active).
- **Hero section** (Properties tab): centered badge "*Verified Rentals & Co-living*", giant heading "*Find Your Next Room*", subtitle, and a 4-stat grid (Listed Units 1,200+ · Matched Flatmates 500+ · Luxury Homes 150+ · Verification Rate 100%).
- **Filters sidebar** (sticky, left, ~320px): search box, city, BHK/bedrooms, bathrooms, furnishing select, price min/max range, area range, property type, listing type, tenant preference, preferred gender, availability toggle, "freshness" (newest) toggle, verified-only toggle.
- **Listings feed** (right): horizontal quick-filter pills (*All Listings / For Rent / For Sale / Flat-Room Share*), results count ("*Showing N property results*"), a view toggler (Grid / List / Map icons), and a sort dropdown (Newest / Price Low→High / Price High→Low).
- **Property card** (grid + list variants): thumbnail image, "For Rent/Sale" tag + "Published/Pending" status pill, title, address + city, price in ₹, "*View listing details* →" link, remove button (owner/admin only).
- **Map view**: full-width Leaflet/OpenStreetMap with property pins (Kochi, Kerala).
- **Empty state**: dashed-border card with building icon — "*No properties match your filters.*"

Screen 2 — Login `/login`

- Centered glass card (max-width 448px), floating on a soft blurred indigo glow.
- Shield icon, "*Welcome back*" heading, "*Sign in or create a new one*" link.
- Email input (mail icon), Password input (lock icon), inline error pill (red).
- Primary **"Sign In"** button, divider "*OR*", secondary **"Continue as Guest"** button.
- (Dev-only) 4 quick-login chips: Normal User · Hostel Admin · Employee · Super Admin.

Screen 3 — Sign Up `/signup`

- Same centered glass card style. Fields: full name, email, phone, password, confirm password, role selector.
- Primary **"Create Account"** button + link back to login.

Screen 4 — Post Ad Wizard `/post` (4 steps + success)

Header: "*Post Advertisement*" + progress pill "*Step X of 4*".

- **Step 1 — "What type of ad is this?"**: 3 selectable cards (Rent Out · Sell Property · Find Roommate), each with icon, title, description, ring highlight when selected. *Continue*.
- **Step 2 — "Select category"**: grid of icon tiles (Apartment/Flat · House/Villa · Commercial · Hostel Space · PG/Co-Living · Plot/Land · Shared Room · Flat Share). *Back* + *Continue*.
- **Step 3 — "Listing specifications"**: Title, Description (char counter /1000), Price (₹), Area (sq.ft), Bedrooms, Bathrooms, Total Rooms, "Is Upstairs Unit?" checkbox, "Is Furnished?" checkbox (reveals Number of Beds + furniture checkboxes: Sofa, Dining Table, AC, TV, Fridge, Washing Machine, Microwave, Wardrobe, Gas Stove, Induction, Gas Connection), *Utilities & Conveniences* block (Water Source, Power Backup, Reserved Parking dropdowns), Tenant Preference + Preferred Gender dropdowns, "Gated Community?" checkbox, Security & Safety checkboxes (CCTV, Guard, Intercom, Fire). For Hostel/PG: gender restriction dropdown + room sharing capacity (1–6 share, dorm) + amenities checkboxes (Mess/Food, WiFi, AC, Laundry). Address, Landmark (optional), City/State/Zip, and a "*Pin exact location on map*" button (shows selected lat/lng). *Continue* (disabled until title/price/address/city set).
- **Step 4 — "Pricing, Contact & Media"**: Advance/Security Deposit (₹) input; "*Use same contact details as profile*" checkbox (uncheck reveals Contact Name + Contact Number); "*Show contact details in listing*" checkbox with privacy note; Photo drag-and-drop zone (PNG/JPG, max 10, "*Browse Photos*") and Video drag-drop zone (MP4/MOV/AVI, max 2, "*Browse Videos*"); uploaded photo preview grid with remove buttons. "*Publish Listing*" button.
- **Step 5 — Success**: animated check, "*Ad Posted Successfully!*", note that listing goes live after staff verification, buttons "*Go to Dashboard*" + "*Post Another*".
- **Modal — Location picker**: full-screen Leaflet map with draggable pin (default center Kochi 9.9312, 76.2673), "*Confirm location*" + close.

Screen 5 — Property Detail `/properties/[id]`

- **Top bar**: "← *Back to catalog*" + Share button (copies link).
- **Hero**: badges row (For Rent · X Beds Available · property type), title, location line (address, city, state · Near landmark), right-aligned Monthly Rent (₹ big, indigo) + Save heart button.
- (Hostel/PG only) quick summary banner.
- **Left column (2/3)**: image gallery (main + thumbnails); property summary cards (rooms, bathrooms, area, furnishing, parking, etc.); (hostel) room-types & pricing breakdown with per-room "select" that opens a move-in summary drawer; "*About the Property*" description; amenities badges grid; video walkthrough (if present); location privacy section with map (exact pin locked until user requests — "unlock location" flow); reviews section (star rating, review list, "write review").
- **Right sidebar (1/3, sticky)**: pricing + availability card (Monthly Rent, "*Available / N Beds Left*" emerald pill, Security Deposit); owner contact + inquiry form card (name, phone/email — contact shown only if owner enabled it, otherwise "*details shared after enquiry accepted*"); "*Schedule Visit*" form (date, time, message).
- **Mobile**: fixed bottom action bar with price + "*Inquire Now*" button (scrolls to inquiry form).

Screen 6 — Dashboard `/dashboard` (role-based)

- **Hero banner** (dark slate): role chip ("*Super Admin Access*" / "*normal role*"), "*Welcome, {name}*", role-specific tagline, Post Property Ad CTA (non-guest), Log out button. (Non-guest) inline "*Price Overview*" mini bar chart (1/2/3/4 share prices).
- **Left sidebar** (tab nav, icon + label + count badge), tabs by role:
  - My Ad Listings / Browse Properties / All Active Ads
  - Verify Listings (employee) · Employee Register (super admin) · User Directory (super admin)
  - Leases · Maintenance · Favorites · Inquiries · Messages · Visits
  - Hostel Requests (super admin) · Hostel Photos (hostel admin) · Hostel Management (hostel admin)
- **Main panel** content per tab:
  - **My Ads**: card grid (status pill, title, address, price, view/remove).
  - **Verify Listings**: list of pending ads with "*Verify & Publish*" button; "*All clean!*" empty state.
  - **Employee Register**: add-employee form (name + email) + staff list.
  - **User Directory**: table of normal users with delete.
  - **Favorites**: saved property cards. **Inquiries**: received enquiries with accept/reject. **Messages**: real-time chat threads. **Visits**: scheduled visit requests. **Leases**: lease contracts list/detail. **Maintenance**: request categories + submit.
  - **Hostel Management** (hostel admin): full config form — hostel name, total beds/rooms, sharing types + per-share pricing, bathrooms, attached bathrooms, WiFi speed, hot water, water filter, mess, laundry, AC, address, city, price, gender type, vacant beds/rooms, water source.
  - **Hostel Photos**: upload/manage hostel photo gallery. Room/Bed grid editor.

Screen 7 — Settings `/settings`

- Profile edit (name, email, phone), theme preference, password change, notification toggles, logout. Same glass card styling.

Component Inventory (build once, reuse)

- Glass Header
- Tab Switcher
- Filter Sidebar
- Property Card
- Property Gallery
- Summary Cards
- Amenities Badges
- Room Breakdown
- Move-In Summary Drawer
- Inquiry Form
- Visit Request Form
- Location Map (privacy-locked)
- Review Section
- Leaflet Map Picker Modal
- Drag-drop Upload Zone
- Stepper Header
- Segmented View Toggler
- Empty State
- Skeleton Loader
- Sticky Bottom Action Bar
- Success Screen
- Toast / Success & Error pills
- Role Chip

Responsive Rules

- **Desktop (≥1024px)**: 3-col detail layout, sticky sidebar, full header nav.
- **Tablet (768–1023px)**: 2-col grids, condensed nav.
- **Mobile (<768px)**: single column, header collapses, tab switcher full-width, filters become collapsible drawer, detail page gets fixed bottom action bar, wizard cards stack.
